Electrical Supply Industry Safe Approach Distances

Course Objectives

This course provides the participant with the knowledge and skills to maintain safe approach distances (SAD's) to Extra High Voltage (EHV), high voltage (HV) and low voltage (LV) electrical apparatus and how they apply in a transmission or distribution work environment when working, or operating vehicles or mobile plant, on or near live electrical apparatus.

It encompasses responsibilities for, health, safety and risk management processes and adherence to safety practices as part of the normal way of doing work.

Methods of Achieving Objectives

Classroom presentations group discussions and exercises

Assessments - Knowledge and practical

Participant Prerequisites

Good knowledge and understanding of the electrical supply industry

Course Duration

Initial - 1 day

Refresher - 4 hours

Group Size

Minimum 1 participant

Maximum 10 participants
